

# Summary of 8 Calf Sightings for A Single Female Humpback Whale

This is a summary of sightings for a single female humpback whale that has been documented with eight different calves. All sightings are from the Kingdom of Tonga, with contributions from many people.

If you come across this female in Vava'u, please take photos and [contact me via email](#). It would be great to add to this chronology of baby whales.

Note that there is a slight difference in the patterns on her left and right sides (see photos for 2012 season).

Blue = Sighted, no calf.

Red = Sighted, with calf.

Green = Sighted, with calf, in both Vava'u and Ha'apai

## 2016 Sighting: No Calf ID Designation, Vava'u ♂

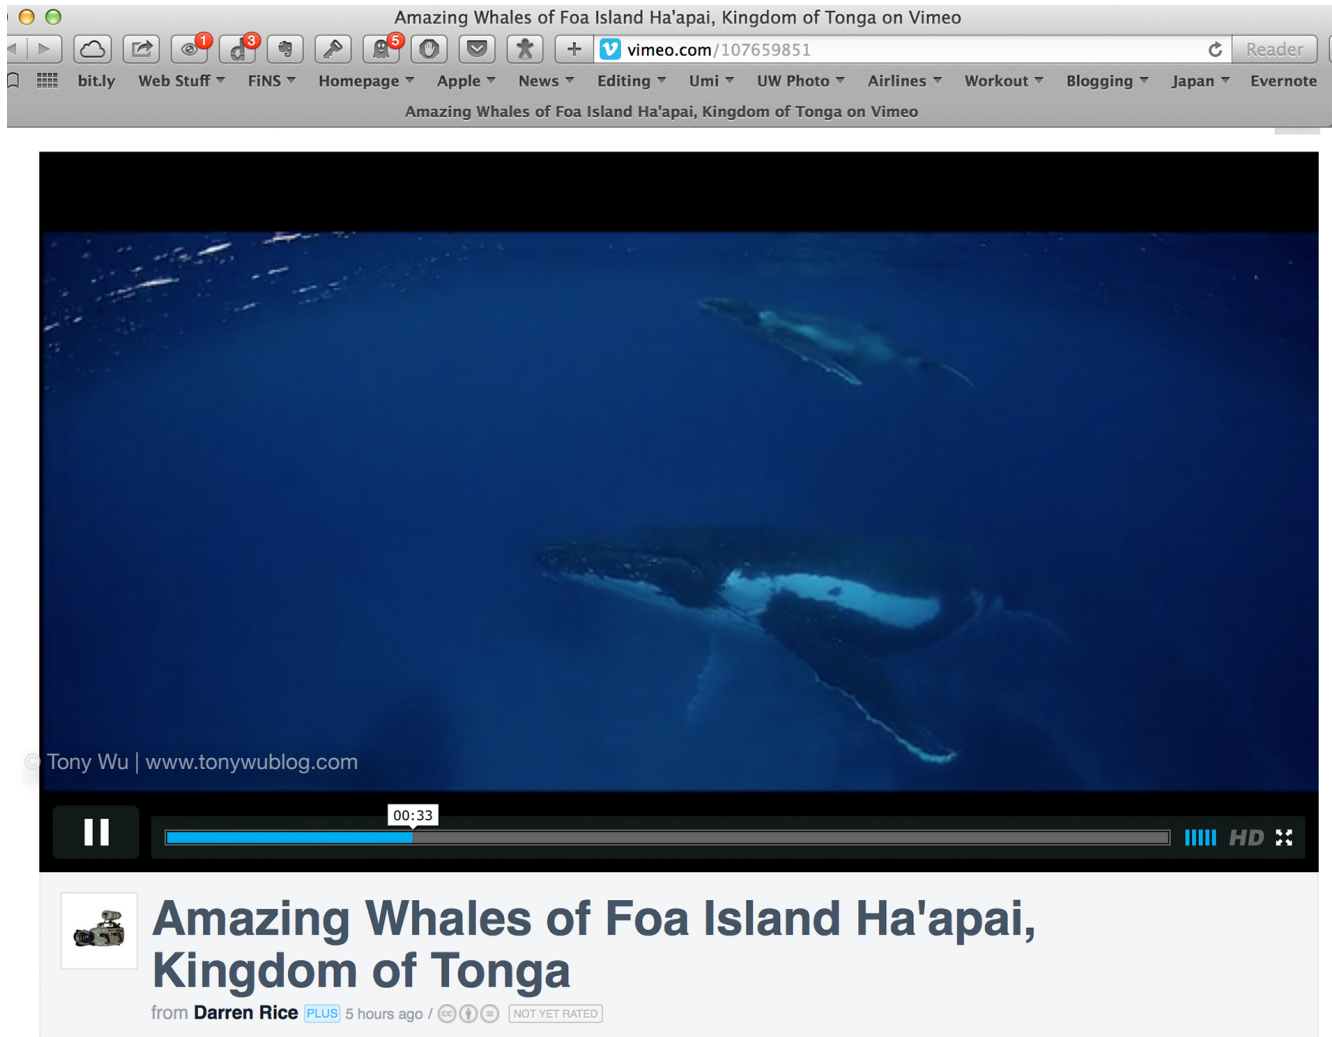

© Matt Draper

**07 October:**

[Matt Draper](#) photographed super mom again in 2016, with a male calf.

# 2014 Sighting: No Calf ID Designation, Ha'apai ♂

The image is a screenshot of a web browser displaying a Vimeo video. The browser's address bar shows the URL [vimeo.com/107659851](https://vimeo.com/107659851). The video player shows a large whale swimming in deep blue water. The video player interface includes a play button, a progress bar at 00:33, and a resolution indicator for HD. Below the video player, the title "Amazing Whales of Foa Island Ha'apai, Kingdom of Tonga" is displayed, along with the uploader's name "Darren Rice" and a "PLUS" badge. The video is noted as being uploaded "5 hours ago" and has a "NOT YET RATED" status.

## 06 August and 20 August:

Darren Rice captured video of this mom with a calf in Ha'apai on 05 August 2014, and noted that the calf is male.

## 2014 Sighting: No Calf ID Designation, Vava'u ♂

**08 October:** Ma'ata, who works at [Mounu Island Resort](#), photographed mom and calf in Vava'u on 08 October, "about a mile west of Hunga entrance."

This is the first time I have confirmation of Super Mommy from both Vava'u and Ha'apai in a single season.

## 2012 Sightings: Calf 201217

**03 September:** High winds and rough seas. Only managed a single drop with the female, calf and escort.

A challenger approached, and the escort rebuffed it twice at high speed and with extreme prejudice. ([Location](#)) ([Blog Post](#))

**28 September:** No escorts present during this encounter. Courtesy Kirsty Bowe. ([Location](#))

## 2009 Sightings: Calf 200929 ♀

**02 October:** Near Taunga. Courtesy Nonie Silver.  
([Blog Post](#))

**03 October:** Around White Patch, toward North Bay. Courtesy Karen Stone.

## 2008 Sighting: Calf 200816

**12 September:** Starting at White Patch, moved to North Bay.

## 2005 Sighting: No Calf ID Designation ♂

**16 August:** Location unrecorded. Photographed before I started my calf ID efforts.

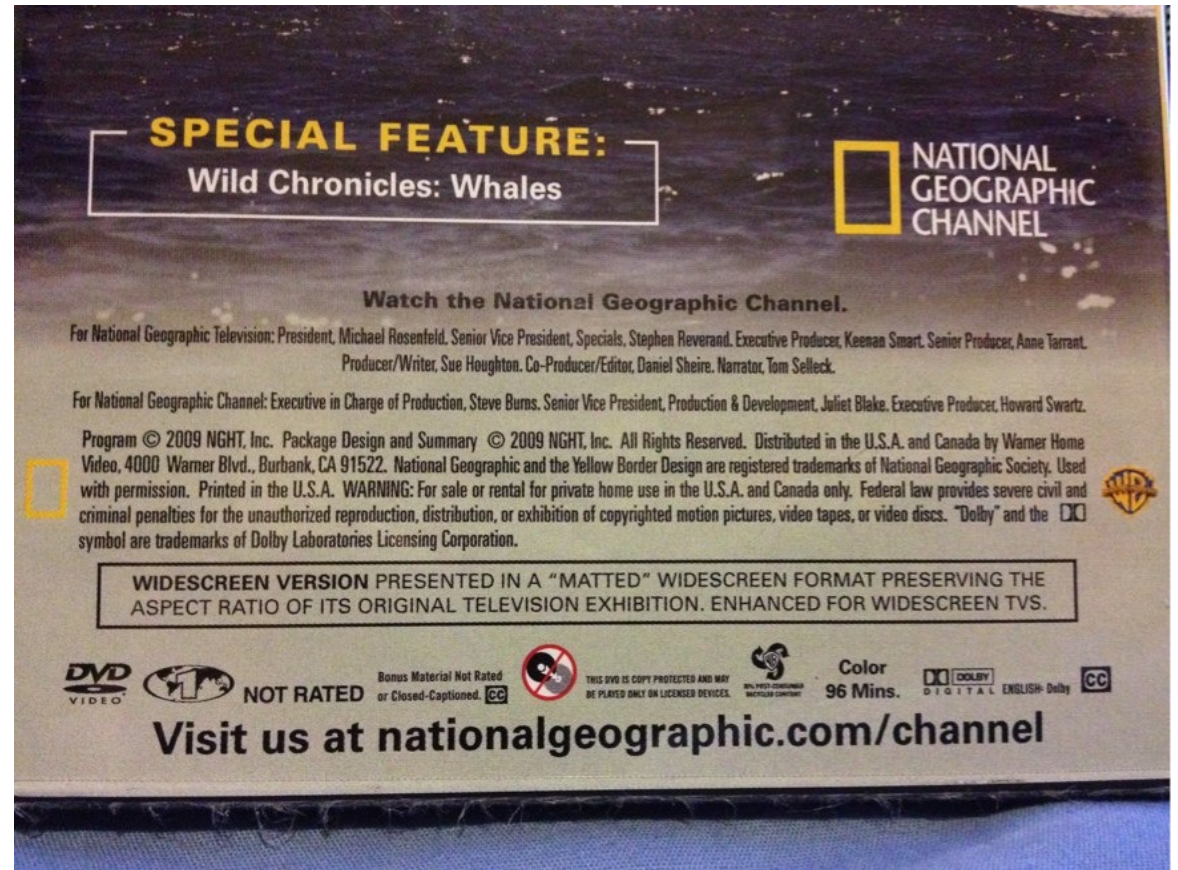

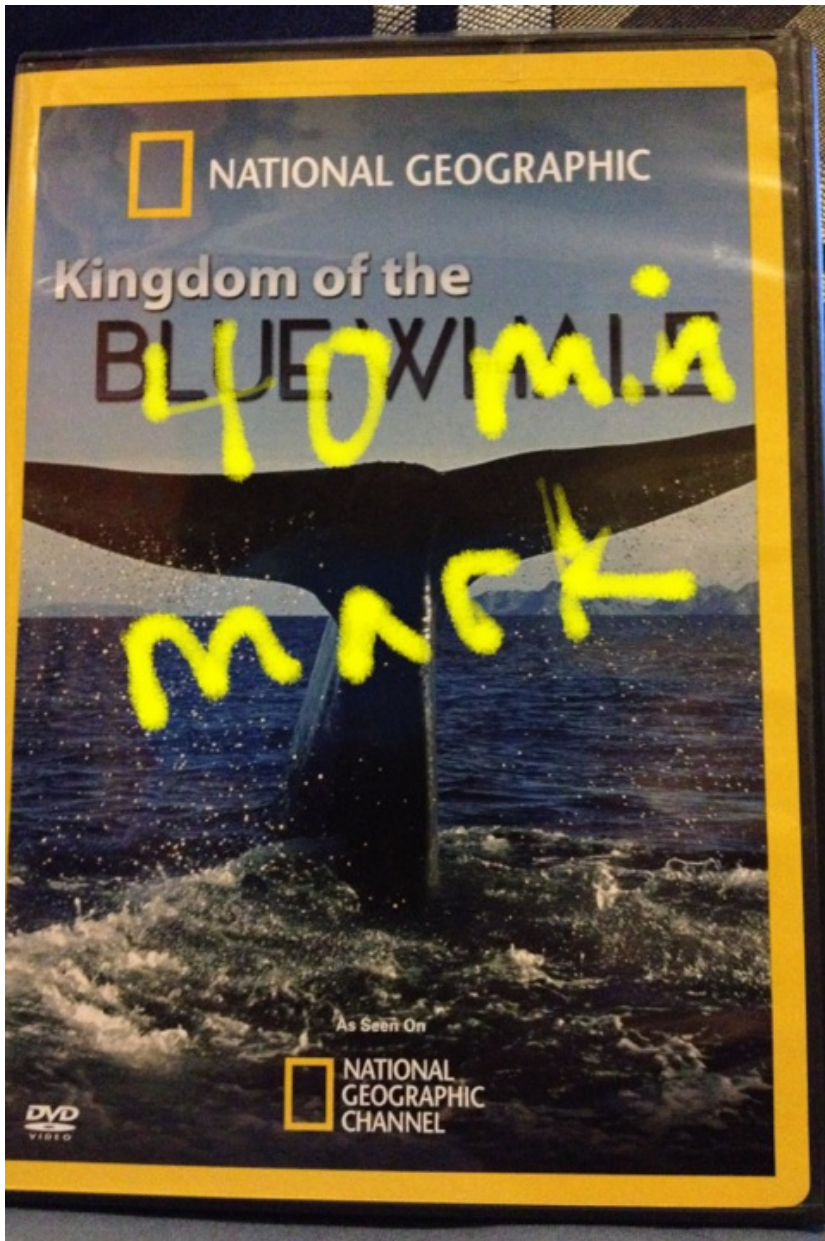

## 2002 Sighting: No Calf ID Designation

**26 September:** Location unrecorded. This photo is screen capture from a 2009 documentary titled Kingdom of the Blue Whale (see next page).

Humpback whale clip in the documentary was licensed from BBC Motion Gallery, with 26 September 2002 specified as date of footage, taken in Vava'u, Tonga. ([Blog Post](#))

Thanks to [Howard and Michelle Hall](#) for help tracking down the source footage!

## 1998 and 1999 Sightings: No Calf ID Designation

The photo on the left with calf was taken in 1999.  
Late July/ early August: Location unrecorded.

The photo on the right with no calf was taken in  
1998.

Both photos were taken with film cameras.
